Version Numbering V3.22

V#.#{-<stage>.#}{-debug}

#.#	A float number denoting the Major and Minor Release 1.X Major Release X.1 Minor Release
<stage>	OPTIONAL: The stage of the project -alpha Internal Use Only -beta Limited External Use -stable Stable production release -debug Development debug release -dev Limited Internal Use Only
.#	An integer that denotes the deploy version of the code. A deploy version are small changes to the code that do not justify a Minor Release increment but need to be tracked.
-debug	OPTIONAL: If release is stable/beta but has debug information the optional debug flag can be added. This Version Denotes potentially internal information being displayed.
